

200 degree movement on vertical axis 340 degree movement horizontally

Product Description:

Track mounted Ceramic Metal Halide (CMH) light fixture using an electronic ballast for use with T6 (G12 base) bulbs like the Philips CDM70/T6/942. Ceramic Metal halide lighting technology provides superior lighting quality, low power consumption, and long service life. Offers better quality light and lower life cycle cost compared to halogen technology.

Features:

- Simple installation
- Compact design, very low profile
- Adjustable to allow easy positioning of light
- Rugged construction
- Clean, conservative appearance

Construction:

Rigid .10 wall extruded aluminum housing

Finish:

Painted white or black

Compatibility:

Works on Halo type track

Accessories:

- Spot or flood reflector cones
- Plain or narrow reed glass lens

Ballast:

79W
120V
OCV 300V
.66A

Socket:

Pulse rated G12 base for T6 HID bulb
